TERMS AND CONDITION

1. Membership

Membership of the service will only become valid three (3) days after the effective date of the membership.

2. Number of roadside assistance calls covering the geographical area of Malta and/or Gozo

The membership entitles you to a total of three (3) call outs in one (1) membership period, subject to the terms and conditions.

MTC will notify you of the exhaustion of the three (3) call outs. Any subsequent service requests will be at a charge.

Provisions have also been made to extend cover for additional calls, in respect of Private and Commercial vehicles (up to 3.5 tons gross weight) that are less than ten (10) years old. This would have to be agreed upon inception of the membership and comes at an additional cost.

3. Calling for roadside assistance

If assistance is required, please call on **21 433333 / 79 433333**

When calling for assistance you must quote the **registration number plate**, make and model and your insurance policy number. It is important to explain and confirm the **breakdown location** (forward your vehicle breakdown location via WhatsApp) and the **name of the street**. MTC will ask questions related to the breakdown which must be answered accurately, and they will send a representative to the breakdown site as soon as possible.

Should you manage to repair your vehicle or roadside assistance is no longer required before an MTC representative arrives, it is important that MTC are informed immediately, otherwise this will still be considered as a call for assistance and will be deducted from your entitlement of calls.

MTC reserves the right to refuse service where a call for assistance is made through an unknown or unidentified number, through voicemail or via message.

4. Assistance provided by MTC

MTC will do their best to assist you as quickly as possible. There are occasions when some delay will be unavoidable due to traffic, weather conditions or other circumstances that create a high demand for roadside assistance service.

For protection of your vehicle, service will be rendered only in your presence or an appointed person of your choice.

- a. MTC may provide service of any minor repairs within a reasonable time and materials used will be charged for separately. The determination of whether a roadside repair is a minor repair and the decision to have your vehicle towed to a garage of your choice shall be completely at the discretion of the MTC representative. If the repair garage or destination suggested by you refuses to keep your vehicle, you will be towed to your place of residence or another garage at a charge of € 35.
- b. If your vehicle is disabled after office hours, weekends or public holidays and the repair garage is closed, your vehicle shall be towed to your residence or to a place of your choice. If service is later required to tow your vehicle to a repairer, this will be considered as another tow.
- c. If the recovery vehicle arrives at the service location and there is no one attending to your vehicle, the recovery vehicle will wait up to fifteen (15) minutes and will then leave. A call will also be deducted from your entitlement. A fee of € 35 will be charged for another call out to the same destination within fifteen (15) days.
- d. MTC may provide transport to the driver of the broken-down vehicle to the destination where your vehicle is being towed or to the nearest bus stop.
- e. If your vehicle has been involved in an accident that requires assistance from the Police or the Wardens, you need to call for roadside assistance only when you have been given the clearance that you can move your vehicle. A fee of € 35 is payable if the towing vehicle arrives on site and is required to wait until such clearance is given.
- f. If your vehicle is located in a basement garage or parking area to which access to the recovery vehicle is limited due to steep or narrow ramps/roads, low ceilings or other similar factors, MTC will do their utmost to provide assistance at a fee of € 45. They may however not be in a position to provide the service required.
- g. Any additional operational costs, parking fees/fines relating to such situation are fully borne by you.
- h. Where there is need for special machinery, that is cranes, high-ups etc, in case your vehicle ends up in a field, sandy places, roundabouts or flooding of more than thirty (30) cm of water etc., specific charges for the hire of special machinery will be fully borne by you.
- i. MTC will only tow vehicles supplied with a tow hook. In case your vehicle does not have a tow hook, service may be provided

at your own risk and MTC cannot be held liable for any damages to your vehicle.

- j. MTC will send a qualified person on the spot at an additional fee if a diagnostic tool is required for an electric vehicle.

The fee will have to be paid before the assistance is provided.

At your option, a replacement of your vehicle's battery may be arranged, provided that the battery is available in stock.
